

Emerging Leaders Programme

24th September 2019

This one-day pilot course covers leadership theory, why leadership in health is needed, how different styles of leadership affect the climate in which we work and more.

If you are new to a first leadership role, or looking to move into one, this pilot course will help provide an understanding of how to get the best from your teams in different situations, explain why you need more than one style to get the best out of yourself and others, and some tools to help manage team conflict.

Not sure if you are more Trump or Ardern?
Come and find out.

Bookings through My Pay L&D

Your managers support to attend this day is essential. Please discuss with them before booking, they'll have homework as well.
