

2019 Training Opportunities

Woundcare - Fundamentals

Aims/Purpose:

The Fundamentals Study Day is part one of a three part series on wound management. Part one focuses on establishing a baseline for knowledge and skills for basic wound management including wound products.

Content:

- Factors that promote/delay wound healing
- Wound assessment acute and chronic wounds
- Workshops - documentation and management of wounds in clinical practice including guidelines to wound product selection

Please note - wound products are not covered in depth in the Intermediate and Advanced courses
