

## 2021 Training Opportunities

### Trauma study day – Orthopaedic/Plastics

#### Aims/Purpose:

The aim of this study day is to extend health professionals knowledge about the management of patients on the ward setting following multi-trauma. The focus of this study day will be on patients who are typically admitted under Orthopaedics or Plastic Surgery.

#### Content:

This day is targeted for health professionals with an interest in trauma surgery. Content may include; external fixators, neurovascular assessment, compartment syndrome, infection, head injuries (concussions/subdural haematoma), chest drains, trauma wound reconstruction, SSG/Flaps and dressings, difficult VAC application, cast and splint care.

Please note content is subject to change. Please contact the course facilitators if you would like a programme.
