

ALERT

Learning outcomes:

The ALERT (Acute Life Threatening Events Recognition and Treatment) course is a multidisciplinary course focusing on the recognition and management of the acutely unwell or deteriorating patient.

Content:

- Learn a structured and systematic approach to the assessment and management of patients.
- Identify deteriorating patients earlier using a systematic and structure approach. By using a structured and systematic approach, deteriorating patients will be identified earlier and care will be escalated earlier to senior help.
- To introduce tools to healthcare professionals which will improve team working and communication.
