

Head and Neck Study Day

Learning outcomes: The Head and Neck Surgery study day is aimed at guiding and supporting nurses who care for patients who have undergone head and neck surgery. It helps nurses and other health care professionals provide better education, support and care for their patients. The day includes sessions from expert speakers with many years of experience in the field.

Content:

- Head and neck cancers
- Reconstruction options
- Nutrition following head and neck surgery
- Facial fracture management
- Tracheostomy care
- Chest physio
- Speech language therapy management
- Voice prosthesis
