

Appointment to role of Associate Director of Nursing (ADoN), Acute Services & Integrated Operations Centre (IOC)

Join me in welcoming Christine Biggs to the permanent role of ADoN, Acute Services & IOC at Hutt Valley DHB, starting with us today. The of ADoN, Acute Services & IOC is a professional nursing role, working alongside fellow ADoNs Claire Jennings and Theresa Fowler.

Christine's most recent experience is with the Auckland District Health Board where she has worked in various roles over the past 7 years, including her current role since 2006 as Charge Nurse Manager of their Medical Ward. She has considerable nursing background including working with the ACG Colleges Group, the Flying Medicine Cabinet, and at the Starship Blood and Cancer Centre.

Christine is excited to be coming to work as part of a district health board that has a philosophy aligned with her own nursing practice of patient centred care, establishing a culture of excellence, as well as with enabling and empowering staff.

I know you will join me and my team in warmly welcoming Christine to our Hutt Valley DHB family.

*Chris Kerr
Director of Nursing
Hutt Valley DHB*
