

2022 Training Opportunities

ALERT

Aims/Purpose:

The ALERT (Acute Life Threatening Events Recognition and Treatment) Course is a multidisciplinary course focusing on the recognition and management of the acutely unwell or deteriorating patient.

Content and Objectives:

- To teach healthcare professionals a structured and systematic approach to the assessment and management of patients.
- By using a structured and systematic approach deteriorating patients will be identified earlier and care will be escalated to senior help early.
- To introduce tools to healthcare professionals which will improve team working and communication.
