

2022 Training Opportunities

Improvement & Innovation - 12 week Placement

Aims/Purpose: This training provides information and support to a trainee to run an improvement or innovation project in their area of work using the [Model for Improvement framework](#), while spending a day per week in the Improvement & Innovation team (Centre of Clinical Excellence)

Content:

During the training you will:

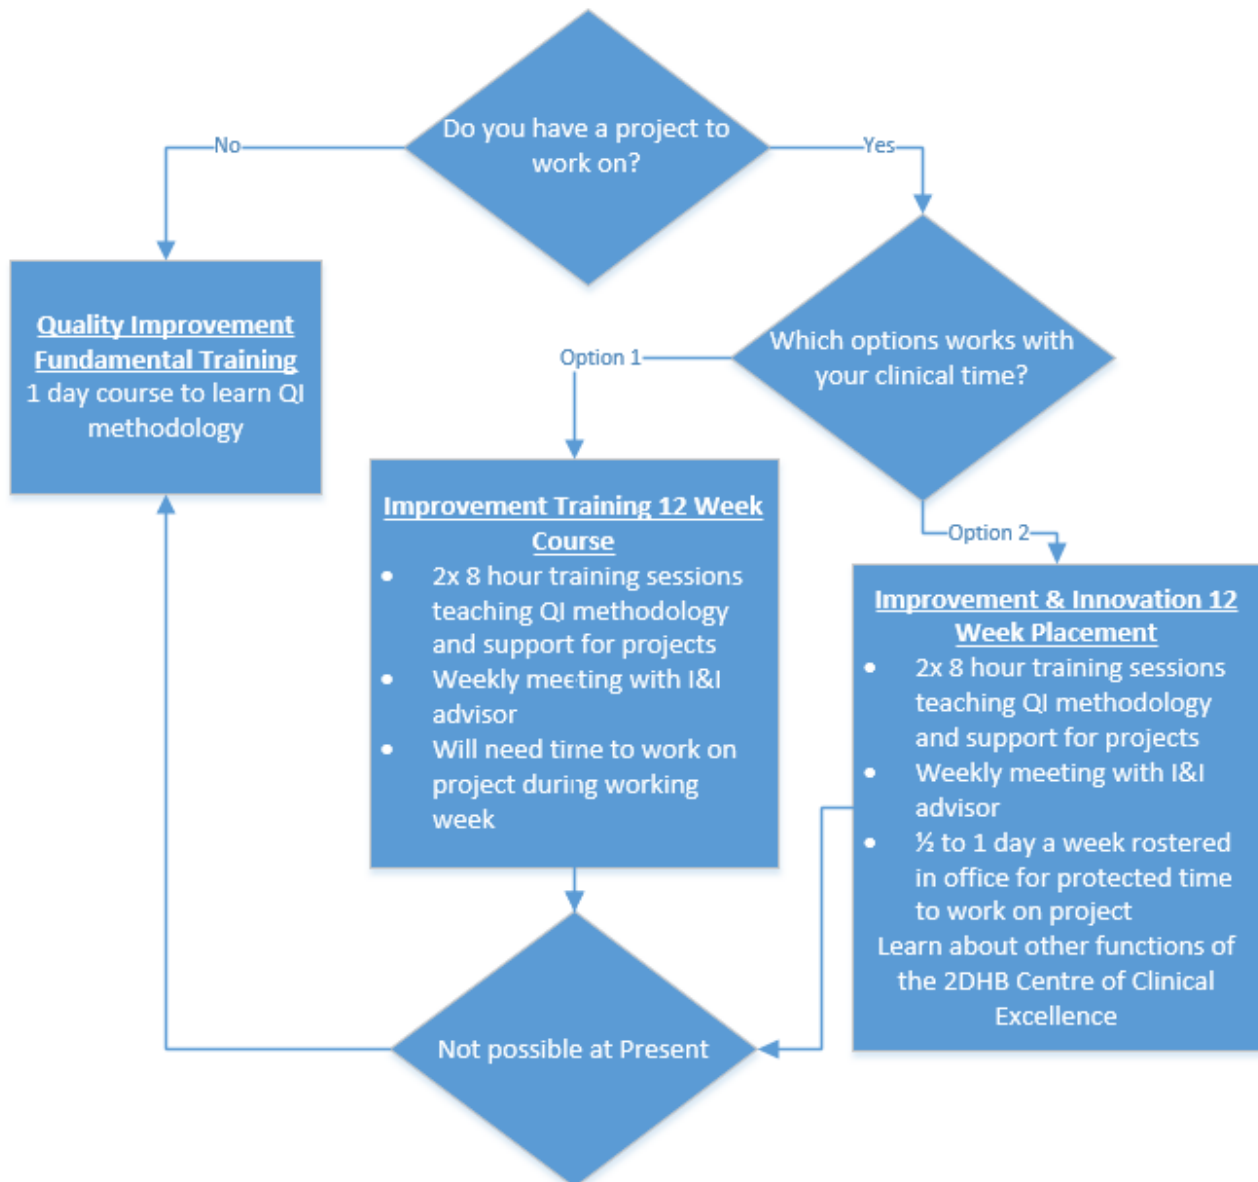

- Use the [Health Equity Assessment Tool \(HEAT\)](#), ensuring you have a strong equity focus when improving healthcare.
- Lead an improvement or innovation project using the IHI Model for Improvement with weekly support and mentoring from improvement and innovation advisors.
- ½ to 1 day per week rostered in the improvement & innovation office (Centre of Clinical Excellence) as protected project time.
- Collect and analyse data in the context of an improvement project.
- Attend 2 x 8 hour teaching sessions about approaches to quality improvement and 1 x 1 hour project showcase at completion.
- You will also learn about other functions of the 2DHB Centre of Clinical Excellence e.g. innovation, consumer engagement, clinical governance, patient safety.
- Please fill out the application below to apply for course and send to the below email.
