

2022 Training Opportunities

Quality Improvement (QI) Fundamentals

Aims/Purpose:

The aim of this training is to provide information a trainee would need to run an improvement project in their area of work using the [Model for Improvement](#) framework. The training teaches the Health Equity Assessment Tool to ensure all projects have an equity focus. Trainees are not expected to have a project in mind to attend this course.

Content:

- To understand how to run a quality improvement (QI) project using the [Model for Improvement](#).
- To understand how to improve health equity in the context of a QI project using the Health Equity Assessment Tool (HEAT).
- To understand key improvement tools and how to use these to structure a QI project.
- To understand how to test change ideas on a small scale using Plan-Do-Study-Act (PDSA) cycles.
- To understand the data for improvement approach
- Learn how to construct Pareto charts, Run charts and review data.
- To understand the System of Profound Knowledge.
