

Advanced Plastic Surgery Study Day

Learning outcomes:

The Advanced plastic surgery study day is aimed at guiding and supporting nurses who care for patients who have undergone complex plastic/reconstructive surgery. It helps nurses provide better education, support and care for their patients, and understand the techniques and procedures involved. The day includes sessions from expert speakers with many years of experience in the field.

Content: Content is not yet confirmed as this will be subject to the availability of the speakers. An update will be provided prior to the study day.
